<b>Material:</b>	100% NYLON						

**Purpose:** These gloves are a simple personal protective aid designed **only for protection against minimum risks** the consequences of which may be expected soon enough by the user - small mechanical action whose effects are superficial. Weather conditions that are neither exceptional nor extreme nature. Put the gloves on dry, clean hands.

The gloves were tested in accordance with EN 388 - mechanical hazards (The higher the number, the higher the protection factor)				
A (0-4)	Abrasion resistance	Performance level 1	 A.B.C.D	The results apply only for the model classes, not for the protection levels (classes). The protection levels (classes) apply only for new gloves not washed or cleaned. The protection levels (classes) are determined based on the tests carried out in accordance with the conditions determined in the valid standards specified above.
B (0-5)	Blade cut resistance (coupe test)	Performance level 1		
C (0-4)	Tear resistance	Performance level 2		
D (0-4)	Puncture resistance	Performance level X		
EN 420 - protective gloves (general requirements)				
(1-5)	Dexterity	Performance level 5		
„X“ = test not performed or not applicable..				

**Please note:** The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use the gloves for handling with sharp objects, flames or hot or heated objects, toxic chemicals or greasy objects. Not resistant to soaking. It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

**Maintenance, lifetime:** After use, make sure the gloves are removed from all pollutants. Thus, you will extend their lifespan. The gloves are designed for single or short-term use only. Dry a damp muff gloves away from sources of heat at the room temperature. Gloves should not be washed. Any dirt should be brushed out using a soft brush, latex Wipe with a damp cloth. Do not clean chemically, bleach, dry in a tumble dryer, or iron. Worn through, burned through, strongly fouled or stiffened pairs have to be replaced with new ones. We are not responsible for any reduction of the protective function due to incorrect care.

**Storing and transport:** Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package. Under suitable storage conditions, shelf life is 2 years.

**Accessories:** The product is supplied without accessories.

**Dangerous admixtures** The gloves do not contain any known allergens. In spite of that, undesirable reactions of sensitive people can't be excluded. If skin irritation or allergic reaction do not use gloves and contact your doctor immediately.

**Disposal:** Dispose of used gloves with respect of the soiling level according to the applicable disposal regulations and the regulations of the local authority. Unused gloves can be disposed of with domestic waste.
