EN 420:2003 EN 388:2003

PPE CATEGORY II

Read the instructions carefully.

Complies with the requirements of the Regulation (EU) 2016/425

**Product:** Protective gloves combined.

<b>Design:</b>	„ZORO“	<b>Code:</b>	3210 007 000 XX	<b>Size:</b>	9, 10, 12
<b>Materiál:</b>	Cow split leather, 100% cotton, lining palm.				

**Purpose:** They may serve as a protection of hands against dirt and protection in the working areas where workers have to face mechanical hazards (abrasions, soiling...). Put the gloves on dry, clean hands.

The gloves were tested in accordance with EN 388 - mechanical hazards (The higher the number, the higher the protection factor)					
A (0-4)	Abrasion resistance	Performance level 2	 A.B.C.D	The protection works only against the specified hazards. Do not use the gloves as a protection against different hazards and classes. The results apply only for the model classes, not for the protection levels (classes). The protection levels (classes) are determined based on the tests carried out in accordance with the conditions determined in the valid standards specified here. The protection levels (classes) apply only for new gloves not washed or cleaned.	
B (0-5)	Blade cut resistance (coupe test)	Performance level 1			
C (0-4)	Tear resistance	Performance level 4			
D (0-4)	Puncture resistance	Performance level 4			
EN 420 - protective gloves (general requirements)					
(1-5)	Dexterity	Performance level 5			
„...X“ = test not performed or not applicable..					

**Please note:** The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use the gloves for handling with sharp objects, flames or hot or heated objects, toxic chemicals or greasy objects. Not resistant to soaking. It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines.

The gloves comply with the requirements for puncture resistance. However, they are not meant for protection against thin, sharp objects, such as injection needles. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

**Maintenance, lifetime:** After use, make sure the gloves are removed from all pollutants. To prolong the life of the glove. The gloves are designed for single or short-term use only. Damp gloves should be dried out at a room temperature. Gloves should not be washed. Any dirt should be brushed out using a soft brush. Do not clean chemically, bleach, dry in a tumble dryer, or iron. The gloves that are worn through, have holes burned through, or are hard must be replaced. We are not responsible for possible reduction of the protective function caused by improper maintenance.

**Storing and transport:** Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package.

**Accessories:** The product is supplied without accessories.

**Dangerous admixtures:** Materials which come into contact with the user's skin can cause an allergic reaction in sensitive individuals. It may contain trace amounts of chromium - leather is tanned with chromium. If skin irritation or allergic reaction contact, do not use gloves and seek medical advice.

**Disposal:** Dispose of used gloves with respect of the soiling level according to the applicable disposal regulations and the regulations of the local authority. Unused gloves can be disposed of with domestic waste.
